The Next Governor. There has been no public expression from the people of this (Macon) county in regard to their chioce of a man for their next Governor. But hav-ing conversed with a large number of them, I feel stified lin saying that the people here, at least all Southern men, with a large proportion of the late Union men, are anxious to vote for the present in-cumbent, Isham G. Harris, for their next Governor. We think good policy dictates the continuance in office of the man who has borne himself so patriotically in the present troubles of the country. It is the only way that we can avoid a contest among the people for the office of Governor, which every nest and true friend to his country ought to try to avoid. Should we support any other man for that office, it would be regarded by the friends of Mr. Lincoln as a rebuke of the course of Governor Harris in the present crisis. For one, I earnestly endorse it, and believe that he is better qualified to carry out the policy adopted by Tennessee than any other man within the limits of the State.

On Sabbath night Mr. J. N. Cothran, of Cheatham Co., died. On Monday morning, Mr. Rosinson, of Capt. DENNISON'S company, fell dead off his feet, while in perfect health. Our dead are all neatly buried in a beautiful cemetery in Fredericksburg, Va. Only six from our Regiment have died, while the Regiment from Arkansas, just by us, have lost about thirty. All our sick are better; none of them are dangerously til. Our friends in Tennessee and Arkansas may rest assured that the people bere are doing all that can be done for the sick houses, and they have all the kind attentions of warm sympathizing friends. There is no place like home, but the sick soldiers find the unwearied attentions of the people here the next thing to home. The ladies here cannot be too highly commended for their attentions to sick soldiers.

I learned last night that Col. Thomas, who cap, tured the St. Nicholas, was arrested on a steamboat at Baltimore, and lodged in Fort McHenry. This is just the result of a too free description given of him and his mode of operating, by the papers of Richmond, and especially the Disputch. The editors here seem to have very little prudeuce about what to publish. I have just heard that President | idly to the ford, in which wagons were standing, Davis says that the editors give him more trouble at present than the Yankees. Plenty of rain here.

HEADQUARTERS MEDICAL DEPARTMENT, Nashville, Tenn., July 17, 1861.

At the regular meeting of the MEDICAL BOARD of the PROVISIONAL ARMY OF TENNESSKE, held this evening, information was received of the death of CHARLES McCormick, Medical Purveyor in the city of Memphis, on Monday evening, July 15, and the following Preamble and Resolutions were unanimously adopted: WHEREAS, It has pleased the Almighty Dispenser

of human events to cut off in his youthful prime our friend and associate, Dr. CHARLES McCormica, Assistant Surgeon and Medical Purveyor in the Army of Tennessee, the Medical Board have considered and passed the following resolutions : Resolved, That in the death of Dr. Charles McCor unick, we mourn the loss of a noble and accomplished

gentleman, a thorough and able physician, and efficient and faithful fofficer and honest citizen, a brilhant scholar and a genuine man. Resolved, That we have been deeply interested in.

and have watched with intensest anxiety, the progress of his disease; that we have received the tidings of his early decease with unaffected sorrow, and that his memory will ever be cherished by us with feelings of admiration, respect and love.

Resolved, That we offer our heartfelt sympathies

to his bereaved widow, orphan and parents, thus deprived of their proudest boast and stay. Resolved. That these resolutions be spread up the Records of the Army Medical Board, be inserted n the Nashville and Memphis daily papers, and pubsished in the Nashville Journal of Medicine and curgery, and that our Secretary furnish a copy to the mourning relatives of the deceased.

GAR-NETT-PARTICULARS OF THE ENGAGEMENT.

Correspondence of the Cincinnali Ganitte FIELD OF BATTE OF CHEAT RIVER, GARRICK's FORD, 8 MILES SOUTH Sr. GEORGE, July 11.

On the night of the 11th, the robel army at Laurel Hill, under the command of Brigadier General Garnett, late Major in the United States army, evacuated its camp in great haste, immediately on learning of General McClelian's approach to Beverly, batteries turned loose upon them, and they hastily to pass Beverly before Gen. McGleilan's arrival, and thus escape the trap set for them by a passage through Cheat Mountain Gap. The evacuation was discovered on the morning

of the 12th, and a pursuit instantly ordered. By ten o'clock the 9th Indiana entered the rebel camp on Laurel Hill, and found a large number of tents, a lot of flour, camp equippage and clothing, and a dozen of their sick and wounded, with a note asking us to give them proper attention. The whole road, for over twenty miles, atrewn with the baggage thrown from their wag-ons, to lighten the loads and hasten their refreat,

and obstructed by fallen trees to delay pursuit The rebel army went within three miles of Bev erly, and there met the rebels flying from Rich Mountain; and finding an ascapa to Hustonsvills impossible, all united and returned toward Laurel Hill until they reached the Leading Creek Pike, and took that road in the direction of St. George. Gen. Morris' army pursued them for a mile or

soldiers. Three fourths of our sick are at private | two beyond Leedsville that night, and halted from eleven o'clock till three this morning, when the adwance seaumed the pursuit, and continued it all day in spate of the incessant rain pouring down. On the route of the rubes army, the latter left the pike. struck Chest river, and paraged the mountain road down the valley. Their passage, with heavy wagon trains, rendered the road almost impassable. They were still without food-some for over twenty-four hours.

Our advance, composed of the Fourteenth Ohio, Seventh and Minth Indiana Regiments, pushed on, guided through the mountain gullies by the tents, camp furniture, provisions and knapsacks thrown from the rebels' wagons, to facilitate their flight,-We forded cheat river four times, and finally, about one o'clock, came up with the enemy's rear guard and wagons. The Fourteenth Ohio advanced rapwhen suddenly the rebel army opened a furious fire on them from the bluff on the opposite side of the river, where they had been concealed, with small arms and two rifled cannon. Fortunately, most of their firing was a little too

high. The Fourteenth returned it with spirit. Meanwhile, two pieces of the Cleveland Artillery came up and opened on the rebels, and the Ninth Indiana advanced to support the Fourteenth Ohio's left, while the Seventh Indiana marched down the river between the two fires and came in on the rebels' right flank. The rebels then fled in great dis-order, leaving their finest piece of artillery. At the next ford, perhaps quarter of a mile fur-ther on, Gen. Garnett attempted to rally his forces, when the Seventh Indiana came up in hot pursuit, and another brisk little engagement ensued.

Garnett was finally shot dead, when his army fled n wild confusion toward St. George. The Seventh Indiana puraned them a mile or two further, but our forces were so exhausted with their forced march of twenty miles to-day with but little rest from yesterday's murch, that Gen. Morris re-

fased to let them pursue further.

The results of the whole affair are the capture of the rebel camp at Laurel Hill; the total rout of their army; the capture of a large amount of their tents and camp equippage; forty of their baggage wagone; their field camp chest, supposed to contain all their money; two regimental banners, one of them that of the Georgia Rogiment; fifty or more prisoners, including four Georgia Captains and Lieutenants, and a large number of Virginia officers; the death of Brig. Gen. Garnett and twenty of his men,

and the wounding of a much larger number. Our loss is wholly in the 14th Ohio Regiment, two killed-Samuel Mills of Company A. and Henry Richeldiffer, of Company C; two fatally wounded -John Kirighanos, of Company A., by a ball through the chest, and Daniel Mills, of Company A. by four severe wounds by shell, and about fifteen thers wounded, but not fatally. Richard Henderson, of Company C., wounded in the leg; Sergeant Greenwood, of Company C., a slight wound in the head, Capt. Fisher, of Company C., a slight wound in the face; L. Richards, of Company C, wounded in the arm; Casper Sinalf, of Company D, wonnded n the wrist. Others were more or less seriously hurt, but were too eager to fight to remain in the

hospital after dressing their wounds, and hence I cannot give their names. Our forces are now engaged in burying their dead. Gen. Garnett is lying at headquarters. His body is to be sent to his family at Richmond.

Garnett's army at Laurel Hill numbered about 5,000. It was increased by the rebels routed from Rich Mountain and diminished by the numerous desertions. Along the line of retreat the woods are filled with deserted rebels, and our men are ordered to stop arresting prisoners, because we can't take care of them. Three times as many as we hold would have been taken but for this.

There must have been over 4,000 rebels on the bluff commanding our position, who opened fire on the 14th Ohio, and the distance was little over 200 that the little over 200 the little ov

The artillery was rapidly served, but aimed about two feet too high, cutting off trees at that listance above the heads of our boys. Some of heir shells bust near our ranks, doing considerable lamage. Our advance, which alone entered the ugogement, numbered hardly 2,000.

It is hoped that Gen. McClellan, or the forces at the information, but now learn that the cargo, con-Rowlesburg, may cut off the retreat of the remainder, and secure the few baggage wagons left. The rebel army was composed mainly of Georgians and mond.—Richmond Dispatch, July 15.

RICH MOUSTAIN, Va. 9 A. M., July 12. Col. E.D. Townsend, Ass't Adj. General:

We are in yossession of all the enemy's works up
to a point in sight of Beverly. We have taken all his guns; a very large amount of wagons, tents, &c.; everything he had; and also a large number of drisoners, many of whom are wounded, and mongst whom are several officers. They lost many killed. We have lost, in all, perhaps twenty killed and forty wounded, of whom all but two or three were in the column under Col. Rosecras, which turned the position. The mass of the ensmy escaped through the woods, entirely disorgan-ized. Among the prisoners is Dr. Taylor, former-ly of the army. Col. Pagram was in command. Col. Resecrans' column left camp yesterday mor-ing and marched some eight miles through the mountains, reaching the turnpike some two or three miles in the rear of the enemy. He defeated an advance force and took a couple of guns. I had a potion ready for twelva guns near the main camp and as the guns were moving up, I accertained that the enemy had retreated. I am now pushing on to Beverly, a part of Col Rosecrans' troops being now within three miles of that place.

Our success is complete and almost bloodless. I doubt whether Wise and Johnston will unite and

The State forces in the Southwest are divided nto three divisions of 10,000 each, commanded by Governor Jackson, whose division is moving to wards Jefferson. Generals Rains and Parsons, and Generals Price and McCullough, have driven Lyon and Sturgis, who had effected a junction, into the neck of land between Warsaw and Oscools, where they were completely water-bound.

Reliable information has been received in town that Gov. Jackson, followed by 16,000 men, well aquipped and armed, is marching upon Jefferson He has pledged his word to be in the Gubernatorial Mansion on the 22d and to support General Sterling Price as chairman of the State Convent A gentleman of the hightest respectability informs us that the reports published this morning, concerning the defeat of Gen. Harris in Monroe county, by Colonel Smith are mere fabrications, and that instead of coming as they purported from Hannibal, the rumors were gathered in the streets of Alton, and were the mere reflex of the desires of the Illinoians. Harris had, day before yesterday 1,500 men well mounted and equipped, and the peo-ple were rapidly flocking to his standard. It is probable that ere this time, he has dispersed Col. Smith's command, and is on his march to effect a junction with Ggv. Jackson, at Jefferson City.

LATER. Just as we are going to press we are informed that a gentleman in this oldy has received a letter from his brother in Cedar county stating that en. Lyon, learning that Burbage had organized a force of three hundred and ten men in Cedar coun ty, sent a detachment of two hundred and fifty men to capture them. Burbage out generaled the Federals, and after a short and decisive fight, the latter surrendered. Thirty of the Federals were killed. LATER NEWS FROM THE SOUTHWEST-ANOTHER BATTLE

EXPECTED. From the St. Louis Evening News, July 13.

We were shown this marning a letter from Lieut-Elward J. Clark, of Col. McNell's regiment, now in the Southwest, to his brother in this city. It was dated Mount Vernon, Lawrence county, July 8th, and contains two days' later advices from that point than have hither been received.

The intelligence of Col. Siegel's fight with the State troops, near Carthage, reached Springfield on Saturday, she cith, and on the receipt of it, Gen. Sweeny instanti, marched, with a force of 600 men, consisting of three companies of Col. Salomon's regiment, one of Siegel's, two of McNeil's and six of Brown's to reinforce Col. Siegel and support his retreat. The troops left Springfield on Saturday night at half past 11 o'clock, P. M., the next day. There they halfed to rest from the exessive fatigue of their march, and next morning Col. Siegel's forces arrived.

On Monday morning intelligence was received that the State troops were advancing on Mount Vernon to attack Colonel Siegel again, and the latter at once ordered his artillery, four pieces, to the edge of the prairie, four miles from the town, to meet the enemy and keep them at a distance till the re-

mainder of his force could come up. It was thought at the time the letter was written there would be a second fight. Colonel Siegel's artillery had only 42 rounds of cartriges to each gun, and this disadvantage would be seriously felt n a protracted fight. Capt. Smith reports that after the fight near Car-

thage a guard of one hundred and twenty men posted at Neosho was surrounded by the Secessionists and compelled to surrender. Their arms were taken from them and after subscribing to some sort of an oath they were released.

There had been no further engagement of any kind in that region up to the time our informant left, which was on Thursday morning. Col. Seigel. with all his force, had returned to Springfield again taken up his quarters there. A messege had been received from Gen. Lyon stating that he was near by and within a few hours march of Springfield. Capt. Smith is coufident that there are nov at Springfield not less than 12,000 troops. ing the rebel forces under Harris and Green. At the same time scouting partles are marching through the country, on this side of the river, to clear that section of armed bands and prevent comnunications with the Rebels here. A CURIORITY.-About ten days ago, Sergeant Fisher, of the Peyton Artillery, brought up to this city and deposited at the Spottswood House, for the of President Davis, a nine-inch shell, which, with fourteen others, were discovered in an old hidden magazine by an Alabama Regiment whilst engaged in throwing up breastworks at York The magazine was constructed of boards, which have long since rotted away, leaving only a ew fragments of mouldering wood.

The discoverers of these hidden missles were under the impression that they had come upon some of the relics of Lord Cornwallis, and hidden by him revious to his surrender of Yorktown, eighty years go. But military men agree that the nine-inch hell was unknown in those days, and that they must have been deposited at a much later perioderhans during the war of 1812-15. The shells differ from those now used only in the

Restorative Cordial BLOOD RENOVATOR

Offspreelesisy what its name indicates, for, while pleasant to the teste, it is revivitying, exhi larsling, and strength uning to the vital powers. It also revivides, reinstates and recews the blood in all its original purity, and thus restores and remems the system invaluemble to attacks of disease. It is the only proparation ever offsred to the world in a popular form so as to be within the reach of all. So chemically and skillfully, combined so as to be the most powerful tonic, and yet to parfectly adapted to the loss of in perfect accordance with the lease of matters, and hence sooths the weakest stomesch, and inner up the digestive organs, and allay all nerveus and other irritation. It is also perfectly exhilitrating in its effects, and yet is never fellowed by lassitude or depression of spirits. It is composed entirely of vegetables and those thoroughly combining powerful teste and scothing properties, and consequently can sever injure. Such remedy has iong been fell to be a desideratum in the matical world, both by the thoroughly skilled in medical science, and also by all who have suffered from debility; for it meeds no medical wall or knowing; or it meeds no medical will or knowing; or it meeds no medical skill or knowing; or it is suffered to the attacks of many of the most dangerous to which poor humanity is constantly liable. HAS IT MA'LNO, IN A SINGLE INSTANCE TO REFERED A CURE, when timely used. Never did we know an instance of dissalisfaction by any one who used it. On the contrary, all are delighted with its operations, and speak in terms of commendation of its magical effects and medical virtues. We speak in this matter "WHAT WE DO ENOW," after ten years experience, and place over reputation for the fulfilment of what we here declare. In aimost every instance where the infant is suffering from pain and cahaustion, relief will be found in fittens or frenty minutes after the syrup is administered.

This yalumble proparation is the prescription of one of the most experienced and skillful Nurses in New England, has been used with never furthing success in THOUSANDS OF CASES. It not only relieve the child from pain, but invigorates stomach and bowels, corrects acidity, and gives tone and energi-to the whole system. It will almost instantly relieve Griping in the Bowels and Wind Colic, and overgome convalants, which, if not speedily remedied, and in death. We believe it the hest and sweet remedy in the storid, in all cases of Dysessery and Distribute in Children, whether it arises from teetblag, or from any other cause. We would say to every mother who has a child suffering from any of the foregoing complaints—do not let your prejudices, for the prejudices of ethers, stand between you and your suffering child, and the rolled that will be sure—yes, absolutely sure—to follow the use of this medicine, if timely used.
